

Hypothetical Case Presentation

Provide a hypothetical patient case with symptoms related to cervical cancer, analyse the case and comment on diagnosis, risk factors, treatment options, and prevention strategies.

OR

Research-Based Assignment

Explore the latest advancements in HPV vaccination or cervical cancer treatment and discuss how these advancements impact prevention and management.

OR

Awareness Campaign

design a community awareness campaign on cervical cancer prevention, including vaccination, screening, and lifestyle modifications, create posters, pamphlets, or social media content as part of the assignment.
